

ENGINEERING PLASTICS LIMITED

WITH OVER 28 YEARS' EXPERIENCE, ENGINEERING PLASTICS LTD CAN HELP YOUR COMPANY INCREASE PROFITS AND REDUCE COSTS THROUGH OUR INNOVATIVE PLASTIC ENGINEERING SOLUTIONS.

We help to improve the production assembly process and the overall wear life of high-performance machinery, increasing productivity and reducing downtime.

We also offer custom design for bespoke products and provide Technical Support throughout the whole process – design through to production, distribution and after sales back up support.

OUR PRODUCTS

SILICON

- Natural Silicon Sheetting
- Natural Large Silicon Seals
- Moulded Silicon Seals

HIGH PERFORMANCE NYLONS

- Rods
- Tubes
- Machined Nylon Components
- Oil Filled Nylons

POLYURETHANES

- Polyurethane Skirting Rubber
- Moulded Polyurethane Parts
- Polyurethane Machined Parts

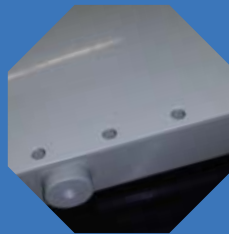

HIGH PERFORMANCE POLYETHYLENES

- Tivar Sheetting
- Polyethylene Liners
- Polyethylene Profiles
- Polyethylene Machined Parts

POLYCARBONATES & PERSPEX

- Polycarbonate Sight Glasses
- Polycarbonate Sight Glasses
- Perspex Sight Glasses
- Fabricated Perspex

POLYPROPYLENE

Engineering Plastics Ltd Produce a range of Polypropylene Machined and Fabricated Parts.

ENGINEERING PLASTICS LIMITED

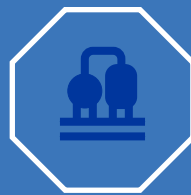

SPECIALISTS IN INNOVATIVE ENGINEERING SOLUTIONS AND SUPPLIERS OF HIGH PERFORMANCE PLASTICS

MACHINE BUILDING

We supply high performance plastic components in a wide range of Nylons, Polyurethane, Polyethylene, PTFE & Silicon.

PROCESS ENGINEERING

We provide high performance engineering solutions for process engineering manufacturers.

MARINE INDUSTRY

We add value, drive efficiencies and improve the processes and outputs for businesses throughout the marine industry.

CIVIL ENGINEERING

We supply anti-vibration pads, PP enclosures and PTFE parts for the Civil Engineering Industry.

PHARMACEUTICAL INDUSTRY

We have expert knowledge and can provide innovative solutions to problems faced in the pharmaceutical industry.

MINING INDUSTRY

We manufacture a wide range of nylon, oil filled nylon, polyethylene & polyurethane wear parts for the mining industry including chute liners, guide rollers, oil filled bearing bushes and more.
